SUMMARY

Aspiring Data Analyst skilled in SQL, Python, Power BI, and Excel with strong foundation in data cleaning, statistical analysis, and machine learning basics. Experienced in building dashboards, writing performant SQL, and generating insights from large datasets. Passionate about applying data-driven solutions and AI innovations to solve real-world problems.

SKILLS

Programming & Frameworks: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn)

Database Management: MySQL (Joins, Aggregations, CTEs, Window Functions)

Data Visualization: Power BI (DAX, KPI Dashboards, ETL), Excel (Pivot Tables, Data Cleaning)

Statistics/ML: Descriptive & Inferential Statistics, Hypothesis Testing, A/B Testing, Regression, Classification

Tools: Jupyter Notebook, Google Colab.

Soft Skills: Problem-Solving, Critical Thinking, Data Storytelling.

EXPERIENCE

Data Analyst Intern – Codveda Technology (Remote)

Aug 2025 – Sep 2025

- Preprocessed and standardized raw datasets, improving overall data quality by 20%
- Conducted exploratory data analysis (EDA) to identify trends and anomalies for business insights.
- Created dashboards in Power BI, Matplotlib, and Seaborn to present actionable insights.
- Automated reporting workflows, reducing manual effort by 15%.

PROJECTS

Cancer Data Analysis | Python, Pandas, Seaborn, SciPy, Sklearn | [Link](#)

Jan 2025

- Performed EDA and data preprocessing on demographic, lifestyle, and clinical features from a dataset of 50,000+ patient records.
- Analyzed treatment costs and survival outcomes across stages, genders, and countries while assessing key risk factors (genetic risk, obesity, smoking, air pollution, alcohol use) and their impact on survival years.
- Applied Kruskal-Wallis hypothesis testing to statistically validate treatment cost variations across cancer types.

Amazon Sales Performance Dashboard | Power BI, DAX | [Link](#)

Dec 2024

- Built an interactive dashboard in Power BI with multiple views (Overview, Product, Product View) to analyze sales performance.
- Developed KPIs and DAX measures to track overall sales, seller count, and order status across regions.
- Highlighted top-performing states (Maharashtra, Karnataka, Tamil Nadu) and cities (Bengaluru, Hyderabad, Mumbai), supporting data-driven strategy.

CERTIFICATIONS

- Deloitte Australia– Data Analytics Job [Credential](#)
- Tata Group– Data Visualisation Job Simulation [Credential](#)
- SQL for Data Science [Credential](#)

EDUCATION

B.Tech, Computer Science Engineering - Bansal Group of Institute, Bhopal

2022 - 2026

INTERESTS

Photography & Graphic Design, Video Editing
